Presidents' Welcome

Welcome to the 56th Annual CPOA and 24th Annual CGEA Conventions in beautiful downtown St. Louis, Missouri. Attendees and guests will have the opportunity to experience the sights, sounds, food, and activities St. Louis has to offer, including a sunset tour of the famed Gateway Arch and several Anheuser-Busch Brewery Tour options—hopefully you ordered tickets with your Convention registration! Many thanks to our Convention Chair, **CWO Amy Ponce, USCG Ret.**, and the National Office staff for their tireless work in putting Convention together this year.

We extend a special welcome to all Gold Lifetime Members and Past Presidents in attendance, and we thank you for your participation, mentorship, and dedication to CPOA. Thank you also to our VIPs for their attendance; their biographies can be found throughout the magazine.

The Opening Ceremony, featuring 10th Master Chief Petty Officer of the Coast Guard Charles “Skip” Bowen, **USCG Ret.**, as our keynote speaker, will start promptly at 0900 on Monday. For the Honors Luncheon, we’re pleased to welcome current Ancient Albatross Master Chief Petty Officer Shawn Burns to our podium. And on Wednesday evening, we welcome **Capt. Wes Pulver, USCG Ret.**, President of the National Coast Guard Museum, as our Annual Awards Dinner keynote speaker.

The past year presented unique challenges including the implementation of the new CPOA/CGEA membership platform powered by i4a as well as a change of watch at the National Office. Together, the CPOA Board of Directors, CGEA Board, and National Office staff have pulled together to navigate these transitions with adaptability and strategic vision, preserving stability, and positioning the organization for a strong future.

Thank you for attending this year’s Convention and for your continued support of the CPOA and CGEA. We look forward to a productive and enjoyable Convention week!

BETTER RETIREMENT[®]

Regardless of what your ideal retirement is, we want to make it noticeably better. You work a long time to be able to retire and who you trust to help you is a big decision that we don't take lightly.

Who We Are

FEFA Financial is an SEC registered investment advisory, but that is not how we define ourselves. Yes, all of our advisors are fiduciaries, but we are more than that. TeamFEFA is a dedicated group of professionals that focus their efforts around a common goal and that is to deliver the best possible planning, execution, and service for our Clients.

What We Do

We frequently tell people that working with us is NOT usually the difference as to whether someone can retire and be comfortable or not. Our goal when working with someone is to make sure that they have a truly comprehensive financial plan, that is as efficient as possible, thus allowing for the most amount of money to be spent on themselves, and/or their families.

Why We Do It

Because people deserve better planning.

The Chief Petty Officers Foundation

The Coast Guard Chief Petty Officers Foundation (CGCPOF) was established on 01 April 2016 by Coast Guard Chiefs to provide financial assistance to members of the Coast Guard Family who experience an unforeseen financial crisis: Enlisted and Officer, Active Duty, Reserve, Retired, and Civilian members of the Coast Guard and members of their immediate families are eligible to apply for a grant. The CGCPOF has been designated by the Internal Revenue Service as a 501(c)3 public charity and, as such, donations, bequests, transfers or ifts made to the CGCPOF are qualified tax deductions. The idea for the Foundation began in

2015 when Chief Warrant Officer Fred Mann, a 96-year-old member of the Coast Guard Chief Petty Officers Association (CPOA), approached the CPOA President about bequeathing an annuity to the CPOA. CWO Mann requested the CPOA establish the benevolent Fred Mann Family Lucky Bag Fund (FMFLB) to assist all members of the Coast Guard family in need. The CPOA Board of Directors authorized the establishment of the CGCPOF to administer the FMFLB and other donated funds. The CGCPOF is affiliated with the CPOA but operates as a separate entity.

The five members of the CGCPOF Board of Directors (BOD) are responsible for oversight of the CGCPOF, including the review of all grant requests. Requests for funds approved by the CGCPOF are intended as a one-time grant. The disbursement shall not be considered a loan, and if granted, there is no expectation of repayment by the Beneficiary.

Awards Dinner Keynote Speaker

Capt. Wes Pulver, USCG Ret.
President,
The National Coast Guard Museum

In 2015, Captain Wes Pulver was appointed as the Executive Director of The National Coast Guard Museum Association, Inc. (NCGMA), where he worked with the internal and external stakeholders to form and coordinate the development of the Museum from its beginning. Today, he serves as the President of the NCGMA as they build the museum to preserve and tell the rich history of the United States Coast Guard.

Captain Pulver, a 1987 graduate of the United States Coast Guard Academy, holds a Master of Engineering degree in Operations Research and Industrial Engineering from Cornell University. From 2010–2015, he was the Coast Guard Chief of Congressional Affairs. From 2012–2015, he was also the Commanding Officer of the Coast Guard Barque EAGLE. Captain Pulver, who has had 28 years of distinguished service to the USCG, is honored to now lend his talents to making the National Coast Guard Museum a reality. He has said, “I am proud to be involved with a project of such importance. Bringing the story of our Coast Guard and its 225 years of service to a National audience strengthens the bond of our citizens, and strengthens the Coast Guard for generations to come.”

The National Coast Guard Museum will honor the heroism of the men and women who answered the call to always be ready, as in the Coast Guard motto: Semper Paratus. Permanent and revolving multimedia exhibits will tell compelling stories of the past, present, and the future as they evoke the Coast Guard’s critical role and mission in maritime security, safety, protection of natural resources, and national defense. The museum will use interactive and modern technology to engage the public, veterans, and present Coast Guard men and women as they serve our nation now and into the future.

The Chain Locker

Written by: MECS Joe Zrelak

Gales & storms roll on the tides, with darkened skies threatening the day.

When the cutter ceases way, is delayed, & begins foundering,

When constructive authority is threatened,

The anchor shall hold.

However, If the chain is not forged carefully, strong, & resilient,

If the locker is unclean & disorderly,

If the chain is not deployed with confidence,

If the chain has not performed consistently, competently, sincerely, & with care for
which implicit trust is established,

If the chain is not maintained free of corrosion, encrustation, bird
excrement, & is fouled with sharp objects,

If the chain is not correctly scoped, shotted, tending true, & adapted to the
prevailing elements, & depth,

If the chain is not utilized, trained with, embraced, & believed in,

If the chain will not go smoothly through the haws & roll on the wildcat,

If the chain does not caution of the pending red shot,

If a single link is allowed a pervasive defect or contains toxic impurities,

If the chain is not dependently linked & securely fastened to the anchor,

If the chain is not devotedly secured to the cutter,

If the chain is not respected by the crew & cadre, & not tested & tried by the wise,

Then the cutter will buck, sway, & heave violently, making repairs in a tempest
difficult, if not impossible. The strain & defects will part the chain, creating a savage
& brutal hazard. The cutter, now set adrift, & abandoned to the elements,
is endangering order and mortality.

A chain is just weight until it is put into service.

Individual links collaborate to protect, reassure, stabilize, empower, & correct.

The anchor chain will speak, creak, sing, & groan under strain, communicating up the
chain situations, foundational perspectives, unseen threats, & unbiased truths.

We are stronger together, to strengthen tomorrow. A faithful chain locker instills
confidence while nurturing a thriving service, fortified to excel in the most austere
environments.

These chiefly variegated links & the revered anchor shall maintain conformity,
connection, and relevance with honor, respect, & devotion to duty.

Now, set the anchor detail, set the anchor detail!
